Move boxes, cartons, cases . . . a whole load at a time—with the hard working safety of a special alloy of Reynolds aluminum—wheel bearings—self-lubricating for lifetime use. Solid rubber tires—non-marking. Tota/ton Hand Truck folds to 6" x 36"—small enough to fit under truck seat, behind a door, or in any limited space. Ready for use in seconds. Extends to 54-inch height with 13½-inch wide base. Weighs less than 15 pounds—light enough to ride on top of load without damaging cartons. Inexpensive enough for small stores, shops, or route salesmen; sturdy enough to carry heavy loads constantly day in and day out for years and years. Available direct from:
